Contents Volume 92

Vol. 92. No. 1

Adaptive resource allocation in multimodal activity networks
A.P. Tereso, M.M.T. Araújo and S.E. Elmaghraby 1

A comparison of picking, storage, and routing policies in manual order picking
C.G. Petersen and G. Aase 11

Buyer focus: Evaluation of a new concept for supply chain integration
T. van der Vaart and D.P. van Donk 21

Total factor productivity and the spillover hypothesis: Some new evidence
V. Sena 31

The design of contracts to coordinate operational interdependencies within the supply chain
C. Schneeweiss, K. Zimmer and M. Zimmermann 43

Economic design of $\bar{X}$ control charts for non-normal data using variable sampling policy
Y.-K. Chen 61

Integrated single vendor single buyer model with stochastic demand and variable lead time
M. Ben-Daya and M. Hariga 75

An exact analytical solution to the production inventory control problem
R.D.H. Warburton 81

Diary of Events 97

Vol. 92. No. 2

Allocative inefficiency and its cost: The case of Spanish public hospitals
A. Rodríguez-Álvarez, V. Fernández-Blanco and C.A.K. Lovell 99

Supply chain coordination in buyer centric B2B electronic markets
C.X. Wang and M. Benaroch 113

An eclectic approach for replenishment with non-linear decreasing demand
J. Yang, G.Q. Zhao and G.K. Rand 125

Price cap regulation, incentives and quality: The case of Brazilian telecommunications
L.O. Façanha and M. Resende 133

doi:10.1016/S0925-5273(04)00212-9

Performance of approximations for compound Poisson distributed demand in the newsboy problem
M.J.G. Dominey and R.M. Hill 145

Optimal lot sizing for an unreliable production system based on net present value approach
B.C. Giri and T. Dohi 157

Warehouse space capacity and delivery time window considerations in dynamic lot-sizing for a simple supply chain
W. Jaruphongsa, S. Çetinkaya and C.-Y. Lee 169

Reactive JIT ordering system for changes in the mean and variance of demand
K. Takahashi, K. Morikawa and N. Nakamura 181

Technical note: The EOQ and EPQ models with shortages derived without derivatives
R. Ronald, G.K. Yang and P. Chu 197

Diary of Events 201

Vol. 92. No. 3

Engineering and economic laws of production
S. Wibe 203

Aligning ERP implementation with competitive priorities of manufacturing firms: An exploratory study
H.R. Yen and C. Sheu 207

Determining the optimal number of sublots in a single-product, deterministic flow shop with overlapping operations
I. Van Nieuwenhuyse and N. Vandaele 221

An integrated approach to enhance the optical performance of couplers based on neural networks, desirability functions and tabu search
C.-M. Hsu 241

Integrated vendor–buyer cooperative models with stochastic demand in controllable lead time
L.-Y. Ouyang, K.-S. Wu and C.-H. Ho 255

Quality tools and techniques: Are they necessary for quality management?
J.J. Tarí and V. Sabater 267

A numerical comparison of three potential learning and forgetting models
M.Y. Jaber and S. Sikström 281

Observation on: "Modeling in-house vs. contract maintenance, with fixed costs and learning effects" [Int. J. Production Economics 32 (1993) 277–283]
W.G. Ferrell Jr 295

Erratum to "Supply chain coordination by revenue sharing contract" [International Journal of Production Economics 89 (2), pp. 131–139]
I. Giannoccaro 297

Diary of Events 299
